# IMPORTANT INFORMATION:

Please read these instructions thoroughly before use. Failure to follow instructions may result in equipment damage or failure, losses, injury or death.

## ⚠️ WARNING: ⚠️

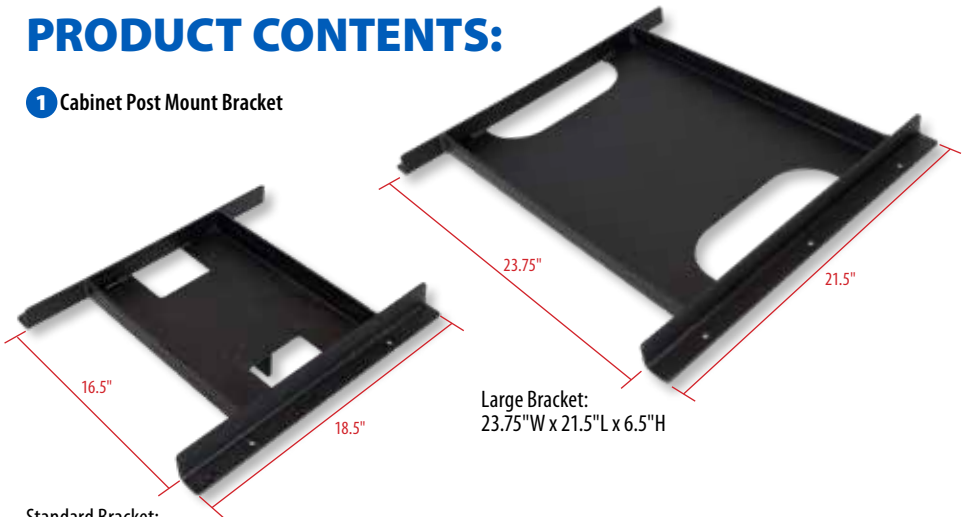

To reduce the risk of electric shock or injury:

- ALWAYS unplug the compressor from power source and remove pressure from airlines before installing, removing or servicing the Cabinet Post Mount Kit.

**IMPORTANT: Airmax is not responsible for equipment damage or failure, losses, injury or death resulting from failure to follow safety precautions, misuse or abuse of equipment.**

# PRODUCT CONTENTS:

Standard Bracket:  
16.5"W x 18.5"L x 6.5"H

Large Bracket:  
23.75"W x 21.5"L x 6.5"H

## 2 Protective Foam Strips

## 1 Cabinet Post Mount Bracket Hardware Package

Standard Bracket Hardware Package

Large Bracket Hardware Package

# INSTALLATION INSTRUCTIONS:

## Tools Required:

- 1/2" Wrench
- (2) 7/16" Wrenches
- Drill with 1/4" Drill Bit

- 1 Install Cabinet Post Mount Bracket on Post**  
The Cabinet Post Mount Bracket is designed to fit a 4 x 4 post (not included). Align bracket onto post with one of the long sides of the bracket facing the direction you want the aeration cabinet to face. Clamp or hold the bracket in position, then use a 1/4" drill bit to drill pilot holes for the lag bolts. Use a 1/2" wrench to secure the bracket to the post with the 4 included lag bolts and flat washers.

- 2 Place Protective Foam Strips**  
Place the protective foam strips on the bracket ledges, sticky side down. Then peel back the paper tape. The protective foam helps cushion the aeration cabinet and reduce vibration.

- 3 Drill Holes in Aeration Cabinet Base**  
Place the aeration cabinet onto the Cabinet Post Mount Bracket. Using the pre-drilled holes in the Cabinet Post Mount Bracket, drill a 1/4" hole from under the bracket, up through the base of the aeration cabinet.

#### **4** Secure the Aeration Cabinet to the Cabinet Post Mount Bracket

Insert a bolt and flat washer into each of the drilled holes and secure with flat washer, lock washer and nut. Tighten using (2) 7/16" wrenches.

#### **5** Connect Airlines and Power

Refer to the Aeration System Owner's Manual for connecting airline and providing power.

## **WARRANTY:**

Cabinet Post Mount Kits carry a 1-year warranty. Airmax® will repair or replace any kits found to be defective. This limited warranty is extended exclusively to the original purchaser and begins from the date of original shipment. Abuse, misuse or alterations of this product void all warranty. Please contact your local dealer to obtain a Return Merchandise Authorization (RMA) Number prior to returning any product. Failure to request an RMA number may result in delay or dismissal of your warranty claim.
