

EcoBoost[®] PRx

PHOSPHATE CONTROL

EcoBoost PRx is a proprietary blend of naturally occurring phosphate binders designed to permanently bind free reactive phosphorus (FRP). EcoBoost PRx will not affect pH.

INGREDIENTS: Proprietary blend of natural phosphate binders.

STORAGE AND DISPOSAL: Store in a cool, dry place until ready to use. 5-Year shelf life when stored properly. Dispose in accordance with state and local regulations.

WATER USE RESTRICTIONS: EcoBoost PRx may be applied to lakes, ponds, and lagoons used for irrigation and/or aquaculture. Water treated with EcoBoost PRx may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, lakes, lagoons, horses, livestock, birds, pets, fish, wildlife, and the environment.

PRECAUTIONARY STATEMENTS: May cause eye or skin irritation. Avoid dust inhalation and contact with eyes and

skin. Wear safety glasses or goggles and rubber gloves when handling. Do not taste or swallow. Wash hands thoroughly with soap and water after use.

KEEP OUT OF REACH OF CHILDREN

ATTENTION: Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. Airmax, Inc. is not responsible for any loss of aquatic life.

WHEN TO APPLY: For best results, apply EcoBoost PRx when plants and algae are minimal or not present. If algae or aquatic plants are present, it is recommended to apply EcoBoost PRx after performing an algacide and/or herbicide application and only after plants and algae have fallen from the water column. This application ensures the maximum amount of FRP are present within the water column before applying EcoBoost PRx.

HOW TO APPLY: Mix EcoBoost PRx with water to make a slurry and apply with a high-volume tank sprayer to the surface of the waterbody. It is important to distribute EcoBoost PRx uniformly for best results.

DIRECTIONS FOR USE

1. Determine treatment area as follows:
[Length (ft) x Width (ft) x Average Depth (ft)] / 43560 = Acre-feet
2. Measure initial FRP with your preferred test kit.
3. Use the chart to determine the amount of product required.
4. For large applications over 10 acre-feet, please contact Airmax at (866) 424-7629 for site-specific treatment rates.

FRP Level (mg/L)	Dosage Rate (lb per acre-foot)
.1 to .2	20
.2 to .3	30
.3 to .4	40
