

# MuckAway<sup>®</sup> PRO

## MUCK REDUCING BACTERIA

MuckAway Pro is the industry leading, most effective, proven solution in muck reduction. Developed from over 20 years of research and comprehensive field studies. MuckAway Pro bacteria rapidly consume muck, converting it to an odorless gas which escapes unnoticed out of the water column. MuckAway Pro utilizes BioMax™ Technology, a proprietary method to formulate the safest and most effective natural product - MuckAway Pro eliminates up to 2" of muck each month!

**INGREDIENTS:** Sodium Chloride, Micronutrients, Bacillus Species, Enzymes (Amylase, Protease, Lipase, Cellulase)

**STORAGE AND DISPOSAL:** Store in a cool, dry place until ready for use and do not allow to freeze. Wash container thoroughly after use and dispose in accordance with state and local regulations. MuckAway Pro has a 5-Year shelf life when stored properly.

**WATER USE RESTRICTIONS:** MuckAway Pro may be

applied to lakes, ponds, and lagoons used for irrigation and/or aquaculture. Water treated with MuckAway Pro may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, lakes, lagoons, horses, livestock, birds, pets, fish, wildlife, and the environment.

**PRECAUTIONARY STATEMENTS:** May cause eye or skin irritation. Avoid dust inhalation and contact with eyes and skin. Wear safety glasses or goggles and rubber gloves when handling. Wash hands thoroughly with soap and water after use.

### KEEP OUT OF REACH OF CHILDREN

**ATTENTION:** Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. Airmax, Inc. is not responsible for any loss of aquatic life. This product is non-genetically altered and non-pathogenic.

The microorganisms used to develop this product can be found naturally in soil and water.

**WHEN TO APPLY:** Apply when water temperatures are above 50° F.

**HOW TO APPLY:** Broadcast MuckAway Pro by hand or spreader. Evenly distribute over the desired treatment area.

### DIRECTIONS FOR USE

- Determine treatment area as follows:
  - Length (ft) x Width (ft) = Square Feet
  - Square Feet/43560 = Surface Acres
- Determine the amount of product using the chart below.

#### For less than one acre or spot treatments:

Use 0.5 to 1 lb. per 1,000 sq. ft. treat every 2-4 weeks

#### For total lake treatment or more than one acre:

Use 10-12 lb per surface acre treat every 4 weeks
